

RxOFFICE[®]

EMR

Flexible • Productive • Secure

Health for all, all for Health

RxOffice[®] EMR is a Healthcare Practice Management system that was created with the objective to provide ease of use, improved efficiency, by eliminating paper, providing interoperability, and reducing medical records errors. This system also includes prescription and Lab ordering as well as a patient portal.

RxOffice[®] EMR handles ambulatory medical records in a secured manner, so that the right information is available at the right time to the right person.

- **Configurable & Easy to Navigate**
- **MU Stage 1 & 2 Certified**
- **ICD 10 Ready**
- **HIPAA Compliant**
