### Silver Spring Dermatology Services Selects RxOffice® EMR

**COLUMBIA, Md., Nov. 18, 2015** – RxOffice®, a firm that develops software and offers design and consultation services for the healthcare industry, has signed Silver Spring Dermatology Services as its latest RxOffice EMR client. The office will use the application to completely automate its health care records.

RxOffice EMR offers health care providers a system that covers complete Ambulatory Medical Records, it includes maintaining Patient appointments, Appointment Schedule for Practice, Covers workflow from Patients Check-in into the Provider Office till Check-out, Create Lab & Radiology Order, electronic prescriptions and securely maintain patient health records. It also features an online to-do list to help provider and their staff to better plan their daily activities efficiently. The RxOffice EMR is compliant with all health care regulatory guidelines, including Office of the National Coordinator's Authorized Testing and Certification Body (ONC-ATCB) 2014 certified, which supports Meaningful Use requirements. The RxOffice EMR also includes the Patient Portal where Patients can view their health records online and electronic document management for a practice.

"What attracted us to RxOffice EMR is the level of service behind the system along with the fact it is compliant with all of the health care regulatory requirements," said Dr. Purnima Sau, who owns the practice. "We have an established practice, and wanted to ensure the technology we used would allow us to serve our patients more efficiently without requiring a great deal of training."

RxOffice EMR enables the practice to eliminate paper and save time, thereby allowing doctors to treat more patients, streamline administrative tasks and provide more effective patient care.

### About RxOffice
